- Final 30%

Fall 2020

Textbook

Homework

Submission:

- Only submit the first few problems.
- Gradescope
- No late homework is accepted
- If you work with another student, state it in the homework
- Always write in your own words
- We are serious about plagiarism. We will prosecute.

Practice Me!:

- DIY. Solutions will be given to you after due date.
- Hint: Course website → homework → hint.

Exam

Mid-terms:

- Midterm 1: Feb 15, 2024. In class, in person.
- Midterm 2: Apr 4, 2024. In class, in person.
- Closed book, closed note, no calculator.
- Formula sheet will be given. (Check course website.)

Final:

- Date: TBD
- Do not travel. We had a Saturday exam several years ago.
- Closed book, closed note, no calculator.
- Formula sheet will be given. (Check course website.)

DRC:

- Submit your accommodation letter through myPurdue.
- Submit exam request at least ONE WEEK before the exam.
- Go to DRC and take the tests.
- We will not entertain late requests.

Contact

Post your questions on **Piazza** for

- Everything about homework
- Course logistics
- Deadline inquiry
- Discussion of exam problems

Contact **UTA** for

- Basic homework questions
- Oh My Question!
- Programming / debugging

Contact **GTA** for

- Mid-term review
- Difficult homework questions
- Re-grade requests

Contact

Contact **Head TA Kent** for

- Grade appeal
- Exam arrangement (due to unanticipated event or DRC)
- Late homework (due to unanticipated event)
- Progress discussion (e.g., probation assessment)

Contact **Professor Chan** for

- Urgent / important / private issues
- Professor Chan will not override grade decisions made by Kent.

Absence

We will follow the university's Medically Excused Absence Policy

MEAPS joins **Grief/Bereavement, Military Service, Jury Duty, and Parenting**

Leave as specific attendance and excused absence situations with university-defined procedures and instructor/student expectations.

"The intention of this policy is to afford arrangements to students experiencing serious and short-term medical situations which cause them to miss coursework and/or exams."¹

Only **emergent** and **urgent** medical situations are covered. Emergent medical issues are those that pose a threat to loss of life or limb. Urgent medical issues are less severe than emergent but cannot wait to be evaluated.

"This regulation is not intended to provide extended arrangements for chronic medical conditions. Students experiencing a **chronic condition or diagnosis** may have their initial absences accommodated, but long-term periods of absences will need to be addressed through students registering with the Disability Resource Center (DRC)."¹

Excuses **will not be provided for primary care medical**

appointments such as overall wellness and general behavioral health care, occasional vomiting and/or diarrhea, cold and flu symptoms, mild fevers, mild to moderate discomfort, sore throat, etc. These situations are considered general attendance issues that should be handled according to the instructor's course-specific practices.

Instructors will NOT need to determine eligibility and should NOT collect medical information from students. Please refer students who believe they may be eligible for MEAPS to the [Office of the Dean of Students \(ODOS\)](#).

Absence due to **COVID-19 quarantine or isolation** will continue to be handled separately from MEAPS, as it has been since Fall 2020, via COVID absence notifications.
